- Developing marketable products

Support of promising innovative projects

Swiss Food Research
Call

[Deadline for submission](#)

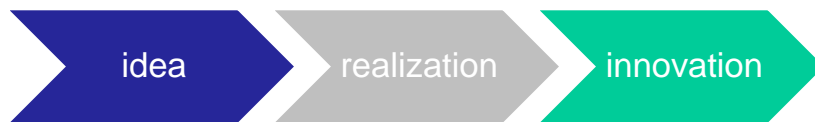

www.foodresearch.ch

- Encouragement of collaboration between scientists in academia and those developing products in companies.
- Support of projects at a very early stage with a financial contribution to the academic partner.
- Two day workshop gives opportunity to discuss the projects constructively with colleges and to seek advice from experts on technology transfer

Supporting projects at a very early stage with high risks

- No financial support needed

- Concrete idea, research topics defined

- Projects at a very early stage with high risks

Experiences from Transferkolleg 2009 on Food Processing

- Economically and scientifically very successful
- High satisfaction among participants
- Dimensions
 - 47 proposals submitted
 - 6 project received recommendation to directly hand in CTI project proposal
 - 18 projects approved as Transferkolleg-Projects
 - approx. 50 % of Transferkolleg-Projects will be submitted as CTI-projects

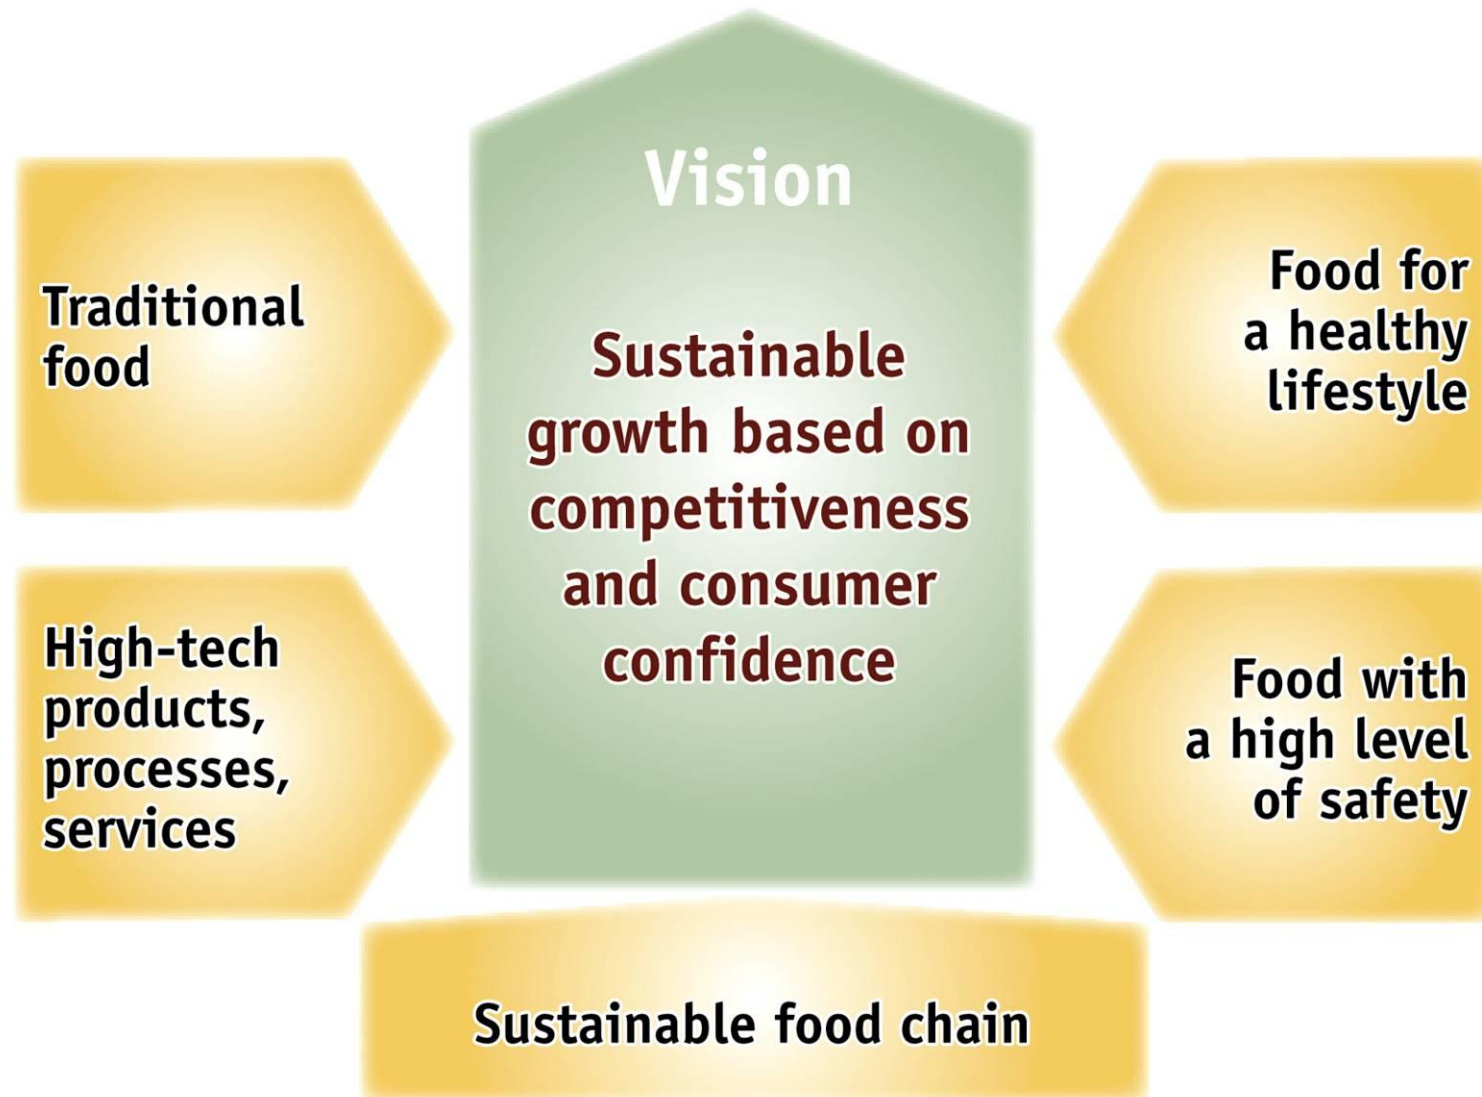

Performances from the academic partner for 16'000 CHF

- Setting up collaboration between academic and industrial partner
- Literature review
- Patent research
- Feasibility study
- Preliminary tests
- Compilation of CTI project proposal

You

- Submit a project proposal (1–2 pages), describing your ideas and the planned product, the estimated timetable, and market potential. Please use the form available at www.foodresearch.ch.
- Work on the project together with your partner from academia or industry.
- Participate in a two-day workshop with your project partner.
- Write a brief final report (2–4 pages).

We

- Subsidize the academic partner with CHF 16'000.- (this is a lump sum and includes VAT), while the partner from industry covers his own expenses.
- Organize an workshop in Berne in November 2012 for you with experts in technology transfer.
- Advise you – upon request – and observe your project's progress.

Important dates

- June 15, 2012: deadline for submission of project proposals
- July 16, 2012: notification of acceptance
- November 22, 2012: workshop in Bern

Let's start the discussion between economy and science on promising innovative projects at a very early stage
